

VISION 2030 DOCUMENT TO BE PRESENTED AT JOINT MEETING ON
TUESDAY, FEBRUARY 2, 2010.

For the past 18 months, Southampton Township has been engaged in a visioning process which has culminated in the creation of a Rural Sustainability Plan. Many of our residents participated in Community Forums to share their ideas for the future of Southampton Township. The Vision Statement and Rural Sustainability Plan has been drafted and will be presented to the Mayor, the Township Committee and members of the Planning and Zoning Boards at a special joint meeting of the Southampton Township Committee, the Planning Board and the Zoning Board on Tuesday, February 2, 2010 at 8:00 p.m. at the Township Building on Retreat Road. Members of the public are invited to attend this meeting and to comment on the plan.

The Plan Endorsement Advisory Committee will present its findings and recommendations to the three assembled township panels. The document, "Southampton Township Master Plan - Rural Sustainability Plan – Vision 2030" will be introduced and explained by members of the Advisory Committee. The report reflects most of the ideas generated at the several Public Forums in which many members of the community participated. We would appreciate your attendance at this meeting in order to demonstrate that the proposals reflect a grass roots community vision of the future of Southampton. There will be an opportunity for you to comment during a public session during the meeting.
