

Steven R. Carty is a local basket weaver who enjoys introducing people to the art form of basketry. Basketry reaches beyond the set borders of established basket patterns and leaves plenty of room for artistic exploration.

Basketry reaches beyond the set borders of established basket patterns and leaves plenty of room for artistic exploration.

These are borders that Steven continuously strives to break down by bridging both traditional and contemporary basket styles. The basket that he will be teaching is a small round reed basket with a wooden bottom. Though this is a simple basket which teaches the basic techniques of the craft, it also leaves a lot of room for creative expression. This basket is well suited for someone who is new to basketry.
